

Bilan Carbone® - Discovery Package:

Understand the Bilan Carbone® methodology

7h self-paced e-learning - International programme

LEARNING OBJECTIVES

- Understand the key principles and objectives of the Bilan Carbone® methodology.
- Identify the main stages of a carbon assessment and understand organisational and operational boundaries.
- Understand GHG accounting concepts, transition planning and links with the GHG Protocol.

Total duration: 7 hours

Price: €290 incl. VAT

PREREQUISITES

None

WHO IS IT FOR?

Professionals who want to understand carbon accounting and the Bilan Carbone® methodology: managers, sustainability teams, finance, purchasing, supply chain and other stakeholders.

 **7h e-learning**

At the start of the e-learning:

Participants access the platform and progress at their own pace through the foundations of the Bilan Carbone® methodology: scope, stakeholders, GHG accounting, transition planning and reporting.

Interactive activities and exercises reinforce learning throughout the programme. The course also introduces the relationship between Bilan Carbone® and the GHG Protocol.

The programme is fully self-paced and available online.

A final online quiz checks the main learning outcomes.

BILAN® 2025
CARBONE

IMPORTANT :

Official calculation tools are not included in this package.

ASSESSMENT & LEARNING VALIDATION

Initial self-assessment quiz

Final quiz to check learning outcomes.

Certificate of completion issued at the end of the course.

A satisfaction survey is completed at the end of the course.

LEARNING METHODS & RESOURCES

The Discovery Package is a fully self-paced e-learning programme delivered through a dedicated LMS with interactive learning content and exercises. It introduces carbon accounting, the Bilan Carbone® methodology and its role in an organisation's low-carbon transition.

Package content:

Bilan Carbone® Discovery Module: principles, objectives, assessment stages, boundaries, stakeholders, GHG accounting, transition planning, reporting and comparison with the GHG Protocol.

Energy & Climate Module: greenhouse effect, climate science, energy-related emissions and current energy challenges for organisations.

TECHNICAL & LEARNING SUPPORT

Support is available through the e-learning messaging system, by email at contact@ifc-d.com.

For accessibility requirements, please contact: contact@ifc-d.com

DOCUMENTS PROVIDED

Course materials are provided electronically at the end of the training.

CONTINUOUS IMPROVEMENT

Training performance indicators are monitored annually. Participant and trainer feedback supports our continuous improvement process.

ACCESS & ENROLMENT

Modalités d'accès : Access is activated after enrolment and payment confirmation. Any prerequisite checks are completed before access is granted. The e-learning course is available after payment confirmation. Availability and enrolment information: www.ifc-d.com

TRAINER

(available through the e-learning messaging system)

Training is delivered by a Bilan Carbone® expert with practical experience in carbon accounting, energy and climate issues, and adult learning. Trainer information is available at www.ifc-d.com.

Our training is designed to be accessible to all participants. If specific accessibility needs require an adaptation, please contact us before the course so that appropriate arrangements can be discussed.
